Subject: FW: Chicken Ranch - map
Attachments: Chicken Ranch.pdf

Hi All,

Thank you for responding to Chris' inquiry. I have attached a revised map which shows the Tribe's drinking water wells in relation to the Chicken Ranch. This map was sent to me by the Tribe's Environmental Director, Kristie Orosco.

Helen – would you like me to set up a call with Kristie to discuss the nitrate hits that she mentioned?

Pam

And the DW wells to the east are the ones with the high Nitrate hits?

Location of Tribal Wells in reference to the Chicken ranch.

Wells to the east are drinking water wells that are on the Tribe's public water system for District A.

The wells to the west of the wells are in Dist B, and are currently not connected to the water system, however the Tribe is researching the potential for project funding to make it feasible for those wells to be put online.

*Respectfully,
Kristie Orosco*

Hi Kristie —Per my request below, I am free all day on Monday except for 10:00 am. Can you let me know your availability?

Thank you,
Pam

Hi Kristie,
I am following up on an issue that the Tribe raised during our Regional Administrator's visit last month. I need to get a little more information on the Chicken Ranch.
Can you let me know if you have any time this afternoon?
Thanks,
Pam
